## SunTube 18

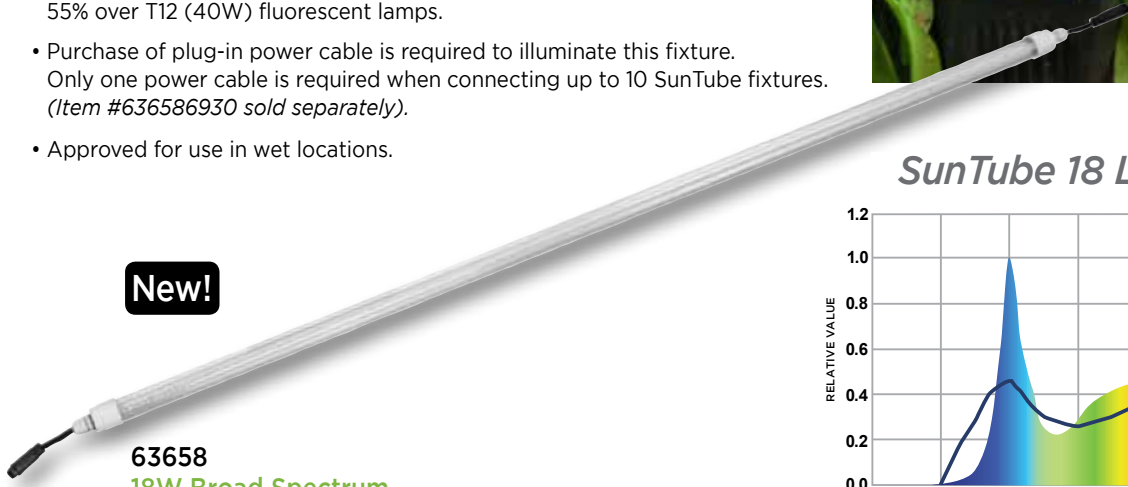

- This LED fixture is an ideal replacement for fluorescent grow lamps in home, hydroponic and greenhouse gardens.
- Broad spectrum light is ideal for leafy green crops.
- Up to 10 SunTube fixtures can be connected to increase light output and coverage.
- Provides energy savings of 44% over T8 (32W) or 55% over T12 (40W) fluorescent lamps.
- Purchase of plug-in power cable is required to illuminate this fixture. Only one power cable is required when connecting up to 10 SunTube fixtures. (Item #636586930 sold separately).
- Approved for use in wet locations.

 40" Mounting Chain for SunTube 18 LED Horticultural Fixture

**636596933**  
 Mounting Rope Ratchet for LED Horticultural Fixtures

# LED Grow Lamps

LED grow lamps are an energy-efficient replacement for incandescent grow lamps.

- LED grow lamps are designed to supplement the sun and help plants thrive year-round.
- Generating less heat than incandescent grow lamps, LED grow lamps prevent leaf damage and enhance the overall appearance of plants.
- Blue and red spectrum lighting nurtures all stages of a plant's growth cycle.
- A19 and BR30 LED grow lamps are compatible with medium base light fixtures such as clamp lights.
- Perfect for household plants, herb gardens and hydroponic gardening.
- Approved for use in damp locations.
