from Westinghouse Lighting

# 2020 DOE LED Ceiling Fan Offering

## Regulated to Conserve Energy

We hope this brochure is a helpful tool in navigating the item number changes for many of our ceiling fans. As always, please reach out to your Westinghouse Lighting sales representative with any additional questions.

### What's changing?

Not much is changing about the appearance of any of our fans. The changes have to do with the airflow and the light source. All of our newly introduced ceiling fans comply with this new standard. However, some existing items introduced prior to 2019 will transition to new item numbers that meet these updated standards.

### Why the change?

The new Department of Energy (DOE) 2020 regulation for ceiling fans in the U.S. requires all ceiling fans to adhere to a new, enhanced airflow standard. All light sources are also required to be LED - either LED lamps or integrated LED light source.
